Installation tester MFT one Less Pain. More Gain.

Take the stress out of documentation

Pain! 

Without installation tester MFT one and Sparkify

- X** Time wasted & paperwork chaos
- X** Cluttered filing of images, measurements, and logs
- X** Error-prone information
- X** Complex structuring of large-scale projects
- X** High coordination effort in working groups
- X** Significant effort for prep and follow-up documentation tasks

 **Gain!** 

With installation tester MFT one and Sparkify

- ✓** Fast digital documentation on site
- ✓** Centralized, clearly arranged project and data storage
- ✓** Automated and structured recording minimizes errors
- ✓** Clear structure even with complex projects
- ✓** Better collaboration through simple, cloud-based sharing of projects and data
- ✓** End of day means end of day - complete documentation on-site via mobile device

LESS paper. MORE future.

Tedious prep and follow-up work, paperwork chaos, and scattered storage locations are a thing of the past. With the Sparkify app, the Wiha installation tester revolutionizes installation testing thanks to NFC connectivity & 3 simple steps:

**Sound good?
That's because it is.**
We'll show you how.

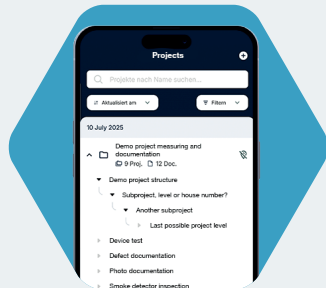

The app for ultra-fast documentation.

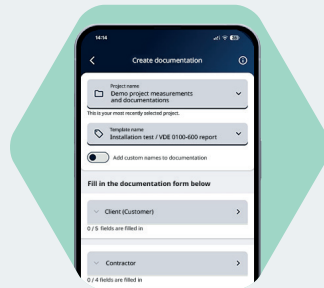

Digitised & centralized

Sparkify
YOUR DOCUMENTATION
powered by wiha®

Fill out the installation test report clearly as a checklist, including visual inspection, with the option of attaching images

Quick and intuitive preparation
Prepare documentation on-site via mobile device during the inspection, in advance at the office, or by importing data from planning tools.

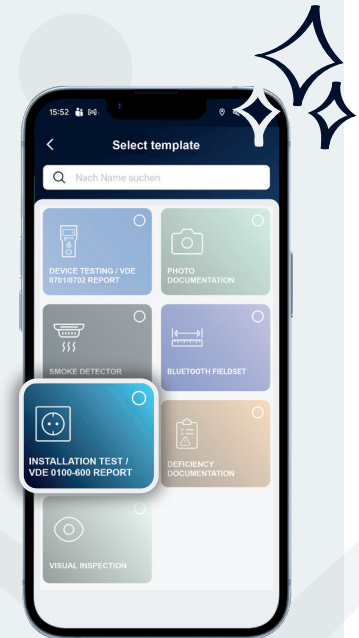

Scan planning data via QR code to automatically import the complete system structure for inspection documentation, or conveniently create circuits from the office using the cloud.*

*with cloud version

Transmit measurements quickly and efficiently
Simply enable NFC on your smartphone and hold it near the compatible measuring tool. All data will be transmitted automatically.

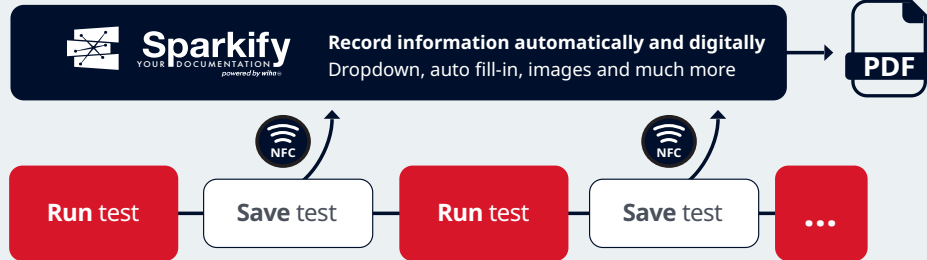

Free to download!

Installation testing with Sparkify

Wow!

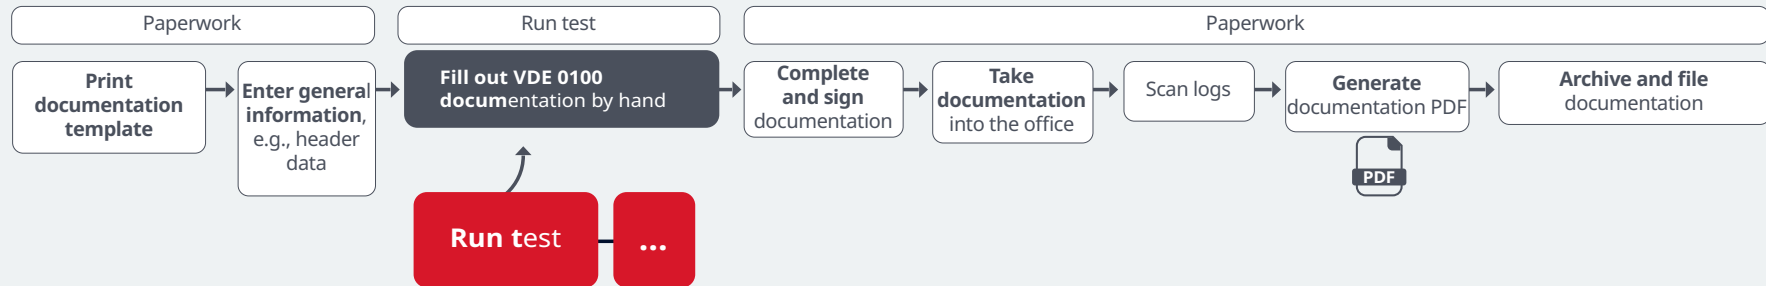

Quick & easy

Measure, photograph, document - all in one structured workflow.

Sparkify smartly merges your measurements and images, automatically creating full inspection reports and VDE-compliant PDFs.

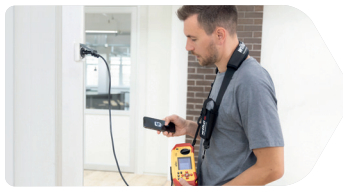

Installation testing without Sparkify

Installation tester MFT one

 Revolutionarily simple – The installation tester performs the tests, Sparkify takes care of the rest

 Click, click, tap – Complete and faster installation testing due to time savings when documenting with Sparkify

 Expedites the testing process through a configurable automatic testing sequence of all relevant measurements at a measuring point

 Clearly distinguished measuring values thanks to good/bad categorization

 Comfortable neck strap with holder for smartphones and accessories for more work convenience

 Secure transport, neat storage and additional storage space thanks to a sturdy case with foam insert*
* for set in case (47216 / 47217)

Choose the set that suits your needs!

 Click to start – Quick and easy documentation preparation, directly mobile during the test, in advance at the office, or via data import from planning tools

 Click to test – Connect the device to the measuring point and conveniently test via auto test

 Tap to docu – Collect the measurement results wirelessly via NFC and complete the documentation in no time on location
