Sparkify
YOUR DOCUMENTATION

Device tester PAT one

Less Pain. More Gain.

Take the stress out of documentation

Pain! 🤯

Without installation tester MFT one and Sparkify

- ✗ Time wasted & paperwork chaos
- ✗ Cluttered filing of images, measurements, and logs
- ✗ Error-prone information
- ✗ Complex structuring of large-scale projects
- ✗ High coordination effort in working groups
- ✗ Significant effort for prep and follow-up documentation tasks

Gain! 😎

With installation tester MFT one and Sparkify

- ✓ Fast digital documentation on site
- ✓ Centralized, clearly arranged project and data storage
- ✓ Automated and structured recording minimizes errors
- ✓ Clear structure even with complex projects
- ✓ Better collaboration through simple, cloud-based sharing of projects and data
- ✓ End of day means end of day - complete documentation on-site via mobile device

LESS paper. MORE future.

Tedious prep and follow-up work, paperwork chaos, and scattered storage locations are a thing of the past. With the Sparkify app, the Wiha installation tester revolutionizes device testing thanks to **NFC connectivity & 3 simple steps:**

Sound good?
That's because it is.
We'll show you how.

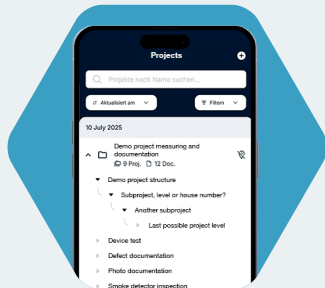

The app for ultra-fast documentation.

Digitised & centralized

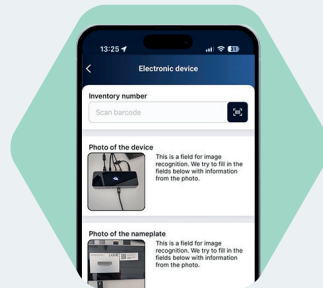

Sparkify
YOUR DOCUMENTATION
powered by *wiha*®

Clear and flexible project management

In the 'Projects' area, you can keep track of all your projects and the associated documentation at a glance – individually structured.

Capture device data via image recognition

Simply photograph the device or type plate in the app. All relevant data will be automatically recognized and entered for you.

Transmit measurements quickly and efficiently

Simply enable NFC on your smartphone and hold it near the compatible measuring tool. All data will be transmitted automatically.

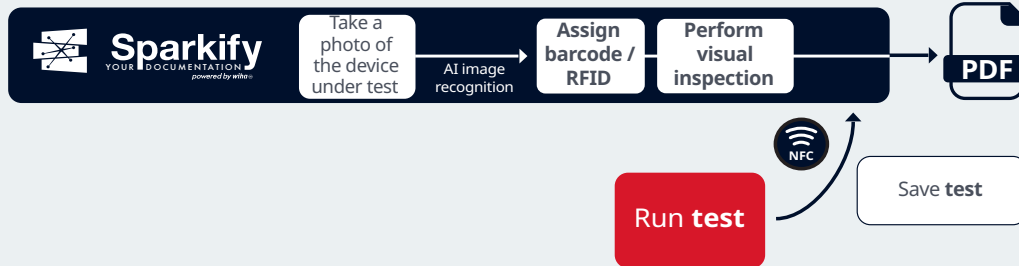

Free to download!

Device testing with Sparkify

Wow!

Quick & easy

Measure, photograph, document - all in one structured workflow.

Sparkify smartly merges your measurements and images, automatically creating full inspection reports and VDE-compliant PDFs.

Device testing without Sparkify

Device tester PAT one

Sparkify App connect
 Revolutionarily simple – the device tester performs the tests, a smartphone takes care of the rest

Click, Click, Tap
 Click, click, tap – complete and faster device testing due to 50% time savings when documenting with Sparkify*

Good/Bad
 Clearly distinguished measuring values thanks to good/bad categorization and intelligent display illumination

RCD
 Includes all relevant tests for device testing

Compact
 Ideally suited for confined spaces and short connection lines thanks to its compact design and the optional battery operation

MOLLE
 Easy transport and neat storage thanks to the cleverly designed bag incl. compartments and MOLLE system*
 * for set in bag (47222 / 47223)

Choose the set that suits your needs!

AI
 Click to start – AI-supported image recognition and pre-configured input fields – simply capture new test objects via photo

Plug
 Click to test – Connect the test object and carry out the desired measurement

NFC connect!
 Tap to docu – Collect the measurement results wirelessly via NFC and complete the documentation in no time on location
